Native Speaker

Interests

- Music, art and cinema
- Hiking

About Me

Specializing in front-end development while maintaining a solid grasp of the whole stack, I excel at bridging the gap between the different sides of development.

Prioritizing team needs is my philosophy when it comes to effectively reaching project goals.

Beyond coding, I have a longstanding passion for digital painting. This creative pursuit informs my approach to mastering new skills.

Professional Experience

Arx.NET S.A. | Front-End Web Developer
2023 – Present

- Develop features for web Applications
- Refactor systems to increase performance
